University & University Hospital of Antwerp, Belgium

Yu Yamaguchi, M.D., Ph.D.
Professor, Sanford Children's Health Research Center,
The Burnham Institute, La Jolla, CA

THE MHE RESEARCH FOUNDATION

Dear Family & Friends,

The MHE Research Foundation has received your donation in memory of Greta Jean Harvey-Falkner. Please know that this contribution makes it possible to fund important research that will lead to a better understanding of MHE and our ultimate goal of one day finding a cure. My son Vinny, 25yrs. old, was born with MHE & has had over 33 surgeries and cancer due to this disease.

Since its inception The MHE Research Foundation has worked hand in hand with researchers around the world to work toward our mutual goal of learning more about this rare and complicated bone disease. Our purpose is to provide researchers, physicians and families with information that will lead to a better quality of life for those diagnosed with MHE. This mission was near & dear to Greta & her family.

If you wish to receive newsletters for the latest progress of our research, conferences & events please register at www.mherf.org.

We are a 501(c)3 non-profit organization (EIN-42-1722962) and all contributions are tax deductible. Please know that an acknowledgement of this donation will be sent to the Michelle Harvey & Family. Our condolences on behalf of our Board of Directors.

Sincerely,

Susan Eaton

Director of Fundraising & Family Advocate
